Physical Description (Injuries, Glasses, etc.) GRADUATION _____

Large shouldered long waisted with short arms and short stocky legs. No known injuries glasses or contact lenses.

Abilities

No wind up delivery with a short leg lift. Throws a 3/4 two seam "sinking" fastball. Fastball is straight with very little movement down in the zone. Fastball has a comfort zone from 84-86 MPH. Throws a 3/4 curve with good "hard" sweep with good downward break. Curve range from 75-78 MPH.

Weaknesses

Fastball is very inconsistent. Has better command of his four seam fastball verses. Two seam sinking fastball. Has better life on his fastball when he goes with the four seam "riding" fastball. His ~~release~~ release time with runners on is 1.55/100 with runner on. Need to speed up his delivery with runners on.

Summation and Signability

Worth

Will He Sign

Will Sign For

This young man doesn't have good command and good pitch selection. Needs to stay with the four seam "riding" fastball. He needs a third pitch to go with his current pitch selection. Area scout to determine signability. For me at best is a class A filler at the rookie level. Would recommend he go onto a two year college and follow his progress in fall of 2018.
